Preset cycles

very simple and intuitive operation

- operation can be handled by less qualified operators

5

Multipoint probe

precise monitoring of the cooling/freezing/
cooking temperature

- the probe makes it easier to ensure food safety
- saves energy and time due to the end of cooling/freezing/cooking when temperature is reached

6

Thawing

readiness of frozen food for processing on time

- time saving
- controlled food handling

7

Cooking during the night

the possibility to preset entire program cycles and run them overnight unattended

- saving equipment capacity during the day
